Improved **Sleep Patterns**
Increased **Energy Levels**
Reduced **Pain**
Enhanced **Mood**
Greater **Focus and Concentration**

The main ingredient of the CBD Canna-Oil is Cannabinol (CBD). Our Cannabinoid receptors are an important system in establishing and maintaining human health. Cannabinoids are known to promote homeostasis at every level of biological life.

If the client is battling an illness, they may add another dropper intermittently throughout the day. Results are individual and can be seen immediately, in a few days or up to a month.

* This product has a long shelf life providing it is stored in a cool, dry place, out of direct sunlight.
